

Sprockets

Front Sprockets

Standard
Chrome Molybdenum Steel for durability.
Used as original equipment by many motorcycle manufactures.

Racing
• Lightening holes reduce weight
• Stronger steel improves performance

Rear Steel Sprockets

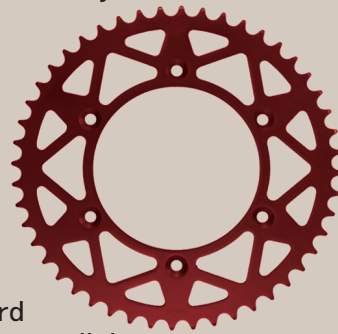

• C45 High Carbon Steel

All sprockets are with heat treated teeth.
(Induction Hardening)

Rear Alloy Sprockets

Standard
• European aircraft aluminium alloy
• 7075-T6
• Color anodized

Racing
• Same features as standard
+ Hard anodizing and colors anodizing
+ Designed for light weight and high performance
+ Mud-grooves for MX use
+ All CNC machined
